

Evan Conekin

DCS Driver JBHT: Masterbrand, Waterloo,
IA

Experience

2022-current

DCS Driver JB Hunt Transport: Masterbrand, Waterloo, IA

Customer Service focused DCS driver with attention to safe, legal, claim free and timely product delivery. I have had the opportunity to utilize previous training and work experience in management and driver training (CDL prep and job specific) to help new or transfer drivers reduce onboard lag time.

2020-2022

Operations/Driver Agtegra- Bristol, SD

Agtegra gave me the opportunity to work in a multi-faceted dynamic work environment with an array of individuals and situations. I was hired as a combination Operations and Trucking employee. This opened the doors to be useful for CDL Prep and Driver Trainer work within the organization. I was tasked with the quarterly and annual safety training and refreshers as required and assigned to employees at the Bristol SD location. During plant and seasons I was a tender driver and off season the fleet vehicle and equipment repairs were the priority.

2015-2020

Shipping and Receiving Operator Valero Corporation, Albert City, IA

Safe, legal and compliant movement of DDGs and ethanol utilizing rail tank and hoppers and truck load outbound shipments. The position required knowledge and compliance with regulations for DOT, FSMA, FRA and OSHA. The extensive use of loaders, telehandlers, Locomotive and Shuttle Wagons to relocate rail cars for loading and outbound shipping on six tracks kept the job exciting. I was allowed to work the scale house weekends during production hours which included testing the inbound grains, weighing trucks in and out and collecting samples for billing and compliance purposes.
